

JIMI'S FRIEND, JONATHAN

Jonathan is a lively 10 year old boy who was born with cerebral palsy. Currently, he attends East Rock Magnet School in New Haven, CT. He is a very outgoing young man who loves to be active whether he is home or out in the community. Due to his disability, he is not ready to walk independently therefore he needs special equipment to assist him during the transportation process. For the past 6 years, Jonathan & I have relied on a Convaaid stroller while shopping, attending church and school, visiting various amusement parks, and while on vacation. The stroller makes going out in the community an easier task.

The new stroller allows Jonathan to be transported via the school bus again. The basket beneath the seat provides storage for selected items we find while shopping in various stores. Jonathan has been exploring the stroller so he can develop a new method of climbing into his 'new wheels'.

Jonathan does not allow his physical limitations to prevent him from exploring the world around him. He enjoys learning and experiencing life to its fullest, laughing and smiling the entire time, as a young person should. We are very grateful to the various donors of Jam 4 Jimi's Friends, as well as Kristin & Jimi, for their commitment to making life and the pursuit of happiness easier for people with special needs.

Thanks for making a difference in our social life.

Sincerely,

April & Jonathan
